1.Introduction

The purpose of the Patient Participation Direct Enhanced Service (DES) is to ensure that patients are involved in decisions about the range and quality of services provided and, over time commissioned by the Practice.

Its aims are to encourage and reward Practices for routinely asking for and acting on the views of their patients. This includes patients being involved in the decisions that lead to changes to the services their practice provides either directly or indirectly to other services.

The DES aims to promote the pro-active engagement of patients through the use of an effective Patient Reference Group (PRG) to seek the views from Practice patients through the use of a practice survey.

The outcomes of the engagement and the views of patients are then required to be published as a Report on the Practice Website

This report summarises the development and outcomes of Kingsthorpe Medical Centre Patient Reference Group (PRG) since its formation in 2011.

2.PATIENT REFERENCE GROUP

Since the practices formation of its PPG we have met on a regular basis to discuss what is happening in the practice and at local and national level. This has been another busy year under the directives of Nene Clinical Commissioning Group and NHS England. Our PPG comes under Northampton West Locality which is part of Nene CCG. We are one of seven practices in our locality.

During the past year the PPG has retained much of its membership and have gained new 3 members but lost 2 members. Following on from last years success of their book stall this has continued. This has proved very successful. Please see attached financial record. We have also appointed a treasurer to oversee these finances, Mr Alan Lawes.

The Patient Participation Group

The PPG is still not representative of the practice population with regard to gender and ethnicity. The practice therefore continues to make efforts to recruit members to the PPG and targets, in particular, the age ranges where the PPG is not fully representative of the practice population, i.e. patients aged 15 – 44. To ensure we do have a mixture of ages we have face to face meetings, and also have patients we email with questions and feedback.

The age/sex demographics are detailed below:

0 – 16	1052
17 – 25	672
26 – 35	867
36 – 55	1453
56 – 65	586
66 - 75	439
76 years and over	368

During this past year we have tried to raise the profile of the PPG by advertising more by means of our practice website, updating our notice board, informing patients of meetings and updating patient contact forms.

Our Current Committee is made up of the following age range:

There are currently 8 members

6 of these are between 55 – 74 years

1 is between 35 – 44 years

1 is between 15 – 24 years

The meeting is chaired by Mr Philip Walker.

Steps Taken to recruit members:

The practice recruited members by displaying posters and handing out leaflets as well as advertising in the practice newsletter. We have also attended a local community group to try to recruit members. The practice has added information about our PRG on the pre-printed message displayed on repeat medication order slips, within its practice leaflet and newsletter and within its new patient registration packs.

The Group is advertising for new members on the practice website, by poster and in the practice newsletter.

The Practice Leaflet also displays information about our PRG, including opening times which are 8am – 6.30pm, Monday to Friday. During these times you will be able to access a Receptionist who will be able to give you further details of our services we provide.

Method and Process for agreeing Priorities

Action Plan and Priorities for 2014/2015

The following were agreed as areas of priority:

- Displaying an up to date notice of what the PRG is about
- Continue fundraising with the Book Stall
- To spread the word of the PRG and have greater patient involvement.
- To ensure all members are kept up to date with the ongoing changes within the NHS both locally and Nationally
- Attendance at the Locality engagement Meetings
